

ICEC30/ICMC 2026

June 22-26, 2026

Daejeon Convention Center (DCC), Daejeon, Korea

Company Name	Sam Dong Co., Ltd.	
Address	243-10 Technojungang-ro, Yuseong, Daejeon, 34027, Korea	
President	Lee Ee Joo	
Website	https://samdong.com/eng	
E-mail	SJLEE@samdong.com	
Telephone	82-10-5513-0627	
Fax	82-42-936-9841	
Exhibitor Introduction	Sam Dong Co., Ltd. (hereafter, Sam Dong), founded in 1977, is a manufacturer of Continuously Transposed Conductors (CTC) and various oxygen-free copper insulated wires. Leveraging decades of expertise in precision wire manufacturing, the company has expanded its activities to the development and production of MgB ₂ superconducting wires. At this booth, we present Sam Dong's MgB ₂ wire technologies and ongoing developments toward practical superconducting applications.	
Exhibit Description	Display of various MgB ₂ superconducting wires developed by Sam Dong, including wires with different filament numbers and configurations, demonstrating the company's wire manufacturing technology for practical superconducting applications.	
Exhibit Product	MgB ₂ superconducting wires
