

ICEC30/ICMC 2026

June 22-26, 2026

Daejeon Convention Center (DCC), **Daejeon, Korea**

Company Name	AMPO POYAM VALVES	
Address	Katea Auzoa ZG – 20213 Idiazabal (Gipuzkoa) – SPAIN	
President	Iban Ferreira	
Website	www.ampo.com	
E-mail	ampo@ampo.com	
Telephone	+34 943 188 000	
Fax	-	
Exhibitor Introduction	<p>AMPO POYAM VALVES is a world leader in highly engineered valves and fluid handling solutions for the most severe services, including cryogenic, high-temperature, corrosive, subsea, etc. applications. With more than 60 years of experience, a fully integrated foundry and a dedicated Service Division, AMPO delivers maximum reliability, long service life and reduced total cost of ownership.</p> <p>The company is a global benchmark in cryogenic valve technology, with millions of valves installed across the entire LNG and LPG value chain, as well as in ethylene, oxygen, nitrogen and other industrial gas applications. AMPO also provides advanced on/off and control valve solutions for liquefied air gases, including hydrogen and helium, supporting the evolving energy landscape.</p>	
Exhibit Description	Cryogenic control and on-off angle valves	
Exhibit Product	Cryogenic control angle valve with electric drive for LH2 (PN50 – DN15)
