<b>Exhibitor Introduction</b>	<p>Demaco is an expert in the field of cryogenic technology. We build infrastructures to facilitate the transport and application of industrial gases at extremely low temperatures. Between -160 and -271 °C, to be precise. Since we work on both standard and highly advanced projects, we have built up a vast experience. Consequently, no cryogenic issue is too ambitious; we tackle every new challenge with equal enthusiasm.</p>	
<b>Exhibit Description</b>	<p>Demaco is a world leading manufacturer for cryogenic infrastructures.</p>	
<b>Exhibit Product</b>	<p><b>Cryogenic infrastructures, for liquid helium and hydrogen system for all type of applications.</b></p> <p><b>The scope of supply can be from a valve, to complete infrastructures:</b></p> <ul style="list-style-type: none"> <li>- Valve-boxes</li> <li>- Multiple transfer lines</li> <li>- Vacuum insulated piping</li> <li>- Cryogenic valves</li> </ul>
