

ICEC30/ICMC 2026

June 22-26, 2026

Daejeon Convention Center (DCC), Daejeon, Korea

Company Name	SuperGenics Co., Ltd	Company Logo
Address	Room 402, Changwon Tech Biz Center, 19, Bulmosan-ro 24beon-gil, Seongsan-gu, Changwon-si, Gyeongsangnam-do, Republic of Korea	
President	Kideok Sim	
Website	www.supergenics.co.kr	
E-mail	sg@supergenics.co.kr	
Telephone	+82 10 9112 9918	
Fax	+82 55 266 9918	
Exhibitor Introduction	<p>SuperGenics Co., Ltd. is a Korean company specializing in superconducting magnet and cryogenic technologies.</p> <p>The company develops HTS magnet systems for superconducting motors, hyper tube systems, MRI, and other advanced applications, as well as cryogenic technologies including helium gas blower cooling systems and ultra-low temperature quantum cooling platforms.</p> <p>SuperGenics provides integrated engineering solutions for scientific, industrial, and next-generation quantum technology applications.</p>	
Exhibit Description	<ul style="list-style-type: none"> - HTS magnet technologies - Superconducting motor applications - Hyper tube superconducting magnet technologies - Helium gas blower cooling systems - Cryogenic engineering solutions 	
Exhibit Product	<ul style="list-style-type: none"> - Scale models of HTS magnet systems and superconducting application technologies - Models and engineering concepts for helium gas blower cooling systems - Presentation materials and engineering solutions for superconducting and cryogenic applications
