

ICEC30/ICMC 2026

June 22-26, 2026

Daejeon Convention Center (DCC), **Daejeon, Korea**

Company Name	D.A.T.E.	Company Logo
Address	8 ROUTE DU PONTET 38770	
President	Philippe BOTTU	
Website	www.date.fr	
E-mail	date@date.fr	
Telephone	0476306311	
Fax		
Exhibitor Introduction	<p>DATE is a France-based company founded in 1979 and located in La Motte-d'Aveillans, specializing in the design and manufacturing of high-performance, custom-made heat exchangers. We operate at the forefront of deeptech industries, supporting demanding applications in defense, cryogenics, scientific research, particle accelerators, and quantum computing.</p> <p>With strong engineering expertise, DATE develops tailored thermal solutions for environments requiring extreme reliability, precision, and performance. Our capabilities enable us to meet highly specific requirements in complex and critical systems.</p>	
Exhibit Description	<p>At ICEC30/ICMC 2026, DATE will present its expertise in addressing thermal challenges in extreme and highly specialized environments. The focus will be on our ability to co-develop solutions with clients, from concept to production, for applications involving very low temperatures, high constraints, and cutting-edge technologies.</p> <p>Visitors will discover how our customized heat exchangers contribute to the performance, stability, and efficiency of advanced systems used in cryogenics, research infrastructures, quantum technologies, and defense programs. Our technical experts will be available on-site to discuss specific applications, engineering challenges, and project requirements.</p>	
Exhibit Product	<ul style="list-style-type: none"> • High-performance thermal solutions for cryogenic applications • Compact, high-efficiency heat transfer systems • Custom-designed heat exchangers
