Exhibitor Introduction	<p>Founded in 2011, Faraday Factory Japan is a manufacturer of high-temperature superconducting (HTS) tape for applications in nuclear fusion energy, transportation systems, medical equipment, aviation and space applications, university and other research facilities. By 2025, we had achieved a cumulative sales record of 3,000 km.</p> <p>Through continuous research and development, we have established a mass production system for our proprietary tape, named MIRAI Tape, which achieves an engineering current density (J_e) of 1,200 A/mm² at 20 K and 20 T. We will continue to develop products with even higher performance and cost competitiveness.</p>	
Exhibit Product	HTS tapes
