

ICEC30/ICMC 2026

June 22-26, 2026

Daejeon Convention Center (DCC), **Daejeon, Korea**

Company Name	Scientific Instruments, Inc.	
Address	4400 Tiffany Drive W, West Palm Beach, FL, 33407 USA	
President	Austin Capers	
Website	sicryo.com	
E-mail	sales@sicryo.com	
Telephone	1-800-466-6031	
Fax	N/A	
Exhibitor Introduction	<p>Scientific Instruments Inc. was founded in 1967 by aeronautical engineer Jack Hoey and low temperature physicist Gilbert Halverson. They developed one of the first Germanium Resistance Thermometers (GRT) and supplied these devices for use on the Apollo Lunar Program. Since inception, Scientific Instruments has been a leader in cryogenic measurement and tank gauging solutions. With a legacy rooted in the NASA programs that lifted us off the launch pad, Scientific Instruments continues to innovate and deliver trusted, high-performance products for aerospace, industrial, and medical applications around the world.</p>	
Exhibit Description	<p>Scientific Instruments offers a wide range of products for cryogenic thermometry and liquid level measurement and control, including cryogenic temperature sensors, Aerospace and Industrial probes, and cryogenic temperature monitors and controllers.</p>	
Exhibit Product	<p>Zirnox Sensor, Silicon Diode Sensor, Ruthenium Oxide Sensor, Aerospace Probes, CTM-1 Cryogenic temperature Monitor</p>
