

ICEC30/ICMC 2026

June 22-26, 2026

Daejeon Convention Center (DCC), **Daejeon, Korea**

Company Name	Linde Kryotechnik AG	Company Logo 
Address	Daettlikonerstrasse 5	
Managing Director	Dr. Lars Blum	
Website	linde-kryotechnik.ch	
E-mail	info@linde-kryotechnik.ch	
Telephone	+41 52 304 05 55	
Exhibitor Introduction	For almost 100 years, we have been delivering cryogenic solutions that empower and inspire researchers working at the cutting edge. Reaching beyond cooling power for fundamental research in science and engineering, we are now supporting the technologies set to shape a better future. From quantum computing and fusion energy to high-temperature superconductors and X-ray free-electron lasers, we deliver extreme temperatures for applications where performance and precision matter most. With proven expertise, robust systems and deep application know-how, we excel at turning advanced concepts into reliable, operational solutions.	
Exhibit Description	Linde Kryotechnik designs and manufactures cryogenic refrigeration systems for temperatures below 80 Kelvin, as well as helium and hydrogen liquefaction plants.	
Exhibit Product	Helium Liquefiers Helium Refrigerators Hydrogen Liquefiers
