<b>Exhibitor Introduction</b>	<p>Valserve, a subsidiary of Framatome, specializes in the design, manufacture and sale of nuclear valves (for civil and military reactors) and cryogenic valves (for fluids at very low temperatures). Our valves equip all 58 French nuclear reactors, and are present in over 180 nuclear reactors worldwide. Our cryogenic valves are aimed at the Liquefied Natural Gas (LNG) market, the space industry and major fundamental research projects such as particle gas pedals and nuclear fusion. Our success is based on our experience and technical know-how, as well as on the quality and safety of our products.</p>	
<b>Exhibit Description</b>	pop-up booth and roll-up banner	
<b>Exhibit Product</b>	Cryogenic control valve
