<b>Exhibitor Introduction</b>	<p>Cryoworld B.V. is a leading manufacturer specialized in high-tech cryogenic, vacuum-insulated equipment. Our company is built on extensive experience in both theoretical and practical fields. We deliver custom-designed cryogenic equipment for liquid helium, liquid hydrogen and other cryogenic fluids. Our expertise includes concepting, process engineering, R&amp;D, innovative design, manufacturing testing and installation.</p> <p>We deliver special helium products in a broad range such as valve boxes, multi transfer lines, cryostats, dewars and superconducting link cryostats. Our liquid hydrogen product portfolio includes (re)fuelling stations, transfer units, lab dewars and liquefiers, bayonets, (flexible) transfer lines, aluminium fuel tanks and vent stacks.</p> <p>In our state-of-the-art production facility, our dedicated engineers and specialists ensure that every project meets the highest quality standards. Cryoworld delivers projects to renowned companies and scientific institutes worldwide.</p>
